PHARMACEUTICAL LIST

This is a list of community pharmacies in Fife and the NHS services that they offer.

All pharmacies in this list offer the following services:

Public Health Service

Minor Ailments Service

Acute Medication Service

1 APRIL 2008

Some pharmacies may offer services not included on this page or in this list.
These are non-NHS services that are provided by the contractor/company.

1. This list is prepared in accordance with the NHS (General Pharmaceutical Services) (Scotland) Regulations 1995 as amended.
2. The services provided by each contractor are as indicated. NHS Dispensing means dispensing of Medicines and supplying of drugs and listed appliances as specified in the Drug Tariff; unless otherwise stated.

3. Sunday & Public Holiday Rota

Primary Care, in consultation with local pharmacy contractors, is responsible for determining which pharmacies will be open for the provision of Pharmaceutical Services on Sundays and/or Public Holidays. These arrangements vary from area to area and are set out in the back of this List.

The Police, local doctors and dentists are advised of these arrangements and in addition, the arrangements for each area are advertised in the local press. Pharmacies required to participate in a rota are required to display details of the pharmacy on duty for that area.

4. Urgent Prescriptions

When a pharmacy is not open, the pharmacist is required to display a notice, in such a manner as to be visible at all times, indicating the facilities available for dispensing prescriptions marked urgent by the doctor.

5. Any enquiries about this List or the provision of Pharmaceutical Services under the NHS should be directed to the Primary Care Department at the address on the front of this List.
